

Abdeldjalil BENHARKAT

Python Developer

Python Expert Developer and Blockchain Developer, currently Solutions Architect on RATbits Ltd and TOP 2% Python Developers on Freelancer.com.

 English  Arabic  French  Russian

Experience

Solutions Architect 2021 - Now
RATbits I Dubai (UAE)

I have been working on Python and blockchain development at RATbits Ltd, in which my role was to create the first and only existing auto NFT fractionalization platform on the crypto space

Data Engineer 2021 - 2021
TAOQ Researches I Riyadh (Saudi Arabia)

I had a great experience working as a Data Engineer at TAOQ Researches, in which I created a stable and scalable system which scrapes 1000's of news websites daily, and auto translate them to any language of choice.

Freelancer 2019 - Now
Freelancer.com I Remote

I'm a TOP 2% Python Developers on the number one freelancing websites in the world `freelancer.com`, in which all my projects were Python based. Also I'm chosen as a Preferred Freelancer by the platform's board (you can find me under @jalilbm).

Education

ESI SBA | Algeria 2016 - 2018
Second grade

I have studied 2 years of computer science at the Higher School of Computer Science in Algeria.

HSE | Moscow 2018 - 2020
Unfinished

After I showed a noticeable 2 years at ESI SBA University, I got chosen by the Russian government scholarship and studied 2 years of Software Engineering at the Higher School of Economics (Высшая школа экономики) in Moscow.

During COVID-19, I was stuck at my home country Algeria, and couldn't study comfortably, so I decided to quite university and start my professional career.
